

MOUNTAIN DOG SAFETY

-You may encounter moose on the trail or in town, so be aware that moose feel threatened by dogs. They may charge at your group if too close, provoked, or spooked. It's advised to keep your dog on leash and be on the lookout for moose and other large wildlife.

-Pets are prohibited on ALL national park trails, tundra, and meadows. Leashed pets may accompany you ONLY on established roads, parking areas, campgrounds, and picnic areas.

This national park is a wilderness area. Your pet could become prey for wildlife like coyotes, mountain lions, bobcats and owls. Dogs are natural predators that can chase or scare off wildlife, and they leave a predator scent that disrupts animal patterns in the park. You may not leave your pet unattended in vehicles if it creates danger to the animal.

-If you plan to do longer hike or spend extended time in the national park, consider dropping your dog off at doggie daycare with Mountain Mongrels! They're right in town and it's like summer camp for your dog. Call (970) 531-0837 for more info
